

# Nevada County

## The Campaign

Healthy Stores for a Healthy Community campaign is a statewide collaboration between tobacco use prevention, nutrition, STD and alcohol prevention partners. The goal is to improve the health of Californians through changes in stores and to educate people how in-store product marketing influences the consumption of certain products.

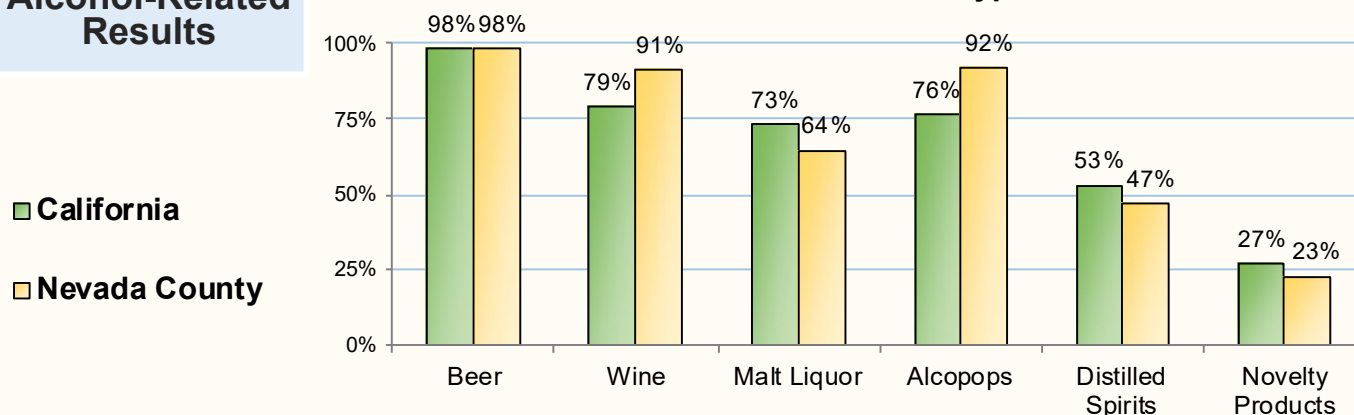

Nevada County is located in northern California, approximately 55 miles from the state capital. Nevada County has a population of 99,696<sup>1</sup>; close to 17%<sup>1</sup> are under the age of 18. Approximately 85%<sup>1</sup> of its residents are White/non-Hispanic, 10%<sup>1</sup> of residents are Hispanic, and 8%<sup>1</sup> of its households speak a language other than English at home. Forty-six percent<sup>2</sup> of all K-12 students qualify for the Free/Reduced Meal Program; 37%<sup>1</sup> of residents have a college degree. For the Healthy Stores campaign, Nevada County completed 66 store surveys.

## The Survey

Scientific surveys were conducted from March 2019 to June 2019 throughout California to assess product marketing and the availability of healthy and unhealthy options offered in stores that sell tobacco and are accessible to youth. Surveys were completed in 5,932 randomly sampled tobacco retailers that sell alcohol in all 58 counties in California. Types of stores included convenience, supermarket, liquor, tobacco, small market, discount, and drug stores. This valuable information helps make the places we shop healthier.

## 2019 Alcohol-Related Results

Percent of Tobacco Retail Stores That Sold Each Type of Alcohol Product
